WS-2334A-98-0577

06.23.02

Members of the Recreation Centers of Sun City, Inc. were not given the opportunity to vote on the issue of using Cap Water.

It seems now the Corporation Commissioners will make the final decision.

At a meeting in Youngtown, AZ, Mr. Keith Larson of the Arizona-American Water Co, answered the question, "is there a water shortage" , his reply was no.

If the Groundwater Savings Project is about replacing water, and not about building a pipeline for the Water Co. the State Recharge System is already doing that. The Exchange agreement will make water available outside of Sun City. Cap water will not cover the water needs of the golf courses, causing Sun City to purchase water formally pumped from our wells.

Should members be allowed to vote, I or we would vote to use the State Recharge Program.
